Affairs in Mexico.

Latest from Mexico-The Revolution-Propects of the War, &c.

VERA CRUZ, 31st July, 1846. pened. The portrait of Santa Ana has been carried in triumph through the principal avenues of the City with acclamations, and the approving quiescence of the National troops of the Fortress of San Juan d'Ulloa. You may rest assured this movement will go forward, and Santa Ana and Almonte will make a triumphant passage from this to the Capital of the Republic. This will cement all defection within the boundaries of the Nation, and, as a natural consequence, bring about a more ener-Sentiment prevails; and the one idea is to "repel the Invader, and recover ground lost by the in tion of the National forces.

Whether we shall be able to carry out our in tentions, or rather intended efforts, must be decito madness by unparalleled injustice, persevered in for nearly ten years, and terminating in an invasion as a justification of it.

amerce : that a De- | sp cree has passed, unanimously, in the National Junta, for the promotion of all who signalize themselves, up around the city of Mexico to an extent of many miles in circuit, and that there is a determination on the part of the whole people to resist whatever

You will perceive from all this that your forces are now about to realize the difficulties which, had we been more assiduous, would have caused, probably, a different feeling among them : a feeling other than that of security.

The decree alluded to above sanctions a change in the formation of battalions; that is intended, as you will probably perceive, at once, to enable the forces of the United States are composed, principally, of new levies, attacks, by such small sections, will materially impede their success.

many additions recently of military and other 82 on the 12th, Mr. Marvin 150, Mr. N res, and these are placed under the control of the General commanding there at this time.

Authority distinctly denies any Mexicans were killed in the rencontre with the launches of the Blockading Squadron off the River Antigua, although several shells were thrown from the fleet. A long list of voluntary subscriptions in aid of the War will be found in some of the journals now sent to you. Altogether, the news that will nov likely to be adopted by Santa Ana, it will possibly be better to remain silent upon at the present time. You are fully aware of his energy as a man; his return will necessarily strengthen not weaken, the formula of the strength of the str return will necossarily strengthen, not weaken, the country. Paredes has conducted himself well, and nobly. The only difficulty with him has been the Monarchy question. If Santa Ana returns, (which there is very little doubt of.) Paredes may, even under him, retain the command he is about to assume of the Army of the North.

There have been frequent changes in the Secretaries of the Departments, which will prove to you that a modification was inevitable; the return of Santa Ana will amalgamate all opinious. Gen.

Brown himself was fermently and doubtless is now.

ALBANY, Thursday, Aug. 20, 1846. To the Editor of The Tribune

SIR: This morning Mr. Jordan concluded his reply to Mr. O'Conor's attack of yesterday, upon the plan of the majority of the Judiciary Committee. He was followed by Gen. Tallmadge, who admires the existing system in many respects, and has no great favor and esteem for the

ports on Education, this morning. The Clerk of the Circuit sent an account of the moneys and securities his charge, the property of infants and widows.

Perpetual Speech Making.

Over and over and over again, are the same arg
reasons, plans, stories, and statements, reported,
about, illustrated, combated, and displayed. To
vention has not even begun to vote on the Judici
port. Either the 128 Members are capable of fo

Cash and Securities with A. Forbus, Clerk 2d Dist. In Court, \$37,424. Invested, \$275,563. Here, some account of interest is given for a year, which the New-York officer omits. Where goes this interest? Funds and Security

Funds and Securities in hands of the Clerk of 3d Circuit.

The Return is signed by no one, and some of the gands have been in Court more than 40 years. The tormer return appears to differ from this one \$1,004.—Total.

The Returns of the other Circuits correspond with the Chancellor's 1st Returns—those of the 7th and 8th give names of parties, and dates of receipts and disbursements, charges fees, &c. but not a word about interest. Mr. Walworth's statement of \$2,951,900, last July, should have been \$2,951,900.

The Chancery Dead Funds. that Judge John Y. Lansing presided, and that addresses were made by T. H. Oakley and Hon. W. W. Campbell.

How much money Mr. Emmet has in charge which nobody has called for, for the last 2, 3, 4 or 5 years, he is not ordered to tell—but he mentions some \$12,000 to \$13,000 not called for, for more than 6 years. Who \$13,000 not called for, for more than 6 years. Who \$13,000 not called for, for more than 6 years. Who \$13,000 not called for, for more than 6 years. Who gets the interest of these and other larger funds, Mr. Emmet does not mention, but hundreds of thousands must have been pocketed by somebody. All that the Report gives, is the title of the cause on which the cash was paid him, the year, and the amount. Here are specimens of dead baisness:

(1809) Ludlow v. Simond \$98; Benson v. Sandford (1809). Lud

be sold at auction on the 27th inst. The Chicago Journal v. Thomas \$98. (1818.) Wiley v. Graham \$448; Lord adm. Tripler \$98. (1820.) Le Roy v. the Mayor of N. Y. \$98; Mason v. Rosevelt \$98. (1822.) Rosevelt v. Cutting \$98. (1823.) Smith v. Neafire \$462; Cooper v. Robbins \$98; Buskirk v. Tempkins \$136. (1825.) Munn \$90 clock A.M. to 10 P. M.

THE THOUSANDS WHO DAILY USE

BOGLE'S HYPERION FLUID acknowledge it to be the
best and only strucke ever known for curing sourf, and
preventing ballness and grey hair. Among the ladies it is
ine theme of universal praise, and they rejoice "they have
at last an article for the hair, not only inocuous but sales
tary—a fluid purely vegetable, which cools the ference
head, imparts a gloss to the hair and prevents its loss."
After such praise as this it would be useless to repeat its
virtues here, but the subscriber would remind parties going
to bathing quariers, that sale water leaves the lair name
and coarse, is also apt to rot it and make it fall off. The
'Hyperion," by its chemical qualities, resists the action of
the salt water, and makes the hair soft, silky, and glossy,
The following is only one of the many certificates in its
favor.

The following is only one of the many certificates in its favor.

"This may certify that nearly eight months since I lost all my hair, and for six months my head was entirely baid; at the end of that time I purchased a bottle of 'Bogle's hipperion Fluid' of D. Scott, Jr. & Co. the agents in Worcester. Since then I have used it regularly, and strictly according to directions, in consequence of which the hair has started all ower my bead. It is now about an inch long, and growing rapidly."
